IS-11.A: Animals in Disaster: Community Planning

Provider: FEMA

Course Overview: This course provides information for groups to meet and develop meaningful and effective plans that improve the care of animals, their owners, and the animal-care industries in disasters.

Course Objectives:

At the completion of this training, the learner will be able to:

- learn how to develop a community plan for managing animals in an emergency,
- identify hazards and threats most likely to affect your community and ways to minimize their impact on animals,
- indicate how communities use the Incident Command System (ICS) to respond effectively to an incident involving animals,
- describe resources available to help communities recover from a disaster, and
- develop community support for a disaster preparedness plan involving animals.

Course Length: 4.5 hours

Target Audience: Emergency management officials, animal owners, animal-care providers, and animal-care industries
