**IS-111.A: Livestock in Disasters**

Provider: FEMA

Course Overview: This course combines the knowledge of livestock producers and emergency managers to present a unified approach to mitigate the impact of disasters on animal agriculture.

Course Objectives:

At the completion of this training, the learner will be able to:

- understand issues that arise when disasters affect livestock,
- determine a farm's susceptibility to hazards, and
- identify actions to reduce economic losses and human and animal suffering in disasters.

Course Length: 3.5 hours

Target Audience: Emergency management officials and livestock owners
