Prepare Your Family: A General Preparedness Scenario

Provider: Upper Midwest Preparedness and Emergency Response Learning Center

Course Description: This course provides general emergency preparedness training for families, focusing on protective actions your family can take prior to a disaster. The course is set up as an interactive scenario. Users direct themselves through a scenario by answering various questions. A “More Info” button is available to provide help with answering a given question.

Time to complete: 1 hour

Learning objectives:

After completion of the course, learners should be able to:

- recognize the need for family preparedness planning.
- assemble all-hazard emergency supply kits.
- create all-hazard emergency plans.
- demonstrate appropriate responses to known or potential disasters and emergencies in the Upper Midwest.
- identify resources for emergency preparedness planning and apply lessons learned.

Target audience: General public
